## REPORT OF Superintending School Committee.

---

The facts and figures furnished by the school registers will be as good an index of the condition of our schools as can be presented. They are as follows:

### DISTRICT No. 1.

Prudential Committee, Charles Smith.

First term. Teacher, May R. Moulton; length of school, 10 weeks; number of pupils, 14; average attendance, 12. \

ROLL OF HONOR.—Jerry Colby, Lela G. Durgin, Fred W. Smith, Myrtie B. Tucker.

Two pupils were absent from thirty-six to forty days of the term. With such a record as this, the best school would prove a nullity to such pupils. Such a neglect of school privileges, which are available for only twenty weeks in a year, indicates a poor appreciation of their importance.

Second term. Teacher, Dora Mason; length of school, 10 weeks; number of pupils, 18; average attendance, 13.

ROLL OF HONOR.—Grace L. Derby, Lela G. Durgin, Carrie E. Plummer, Myrtie B. Tucker.

Two pupils were absent this term from thirty to forty days.

## DISTRICT No. 2.

Prudential Committee, Oliver D. Philbrook.

First term. Teacher, Carlie Sanborn; length of school, 8 weeks; number of pupils, 11; average attendance, 10.

ROLL OF HONOR.—Lucia A. Sanborn, Abbie J. Bixby, Lilla E. Philbrook, Charles E. Meloon, Orman W. Lane, Howard P. Lane.

Second term. Teacher, Carlie Sanborn; length of school, 7 weeks; number of pupils, 12; average attendance, 8.

ROLL OF HONOR.—Lucia A. Sanborn, Warren L. Farnham, Charlie E. Moulton, Orman W. Lane, Howard P. Lane.

Notwithstanding the shortness of the terms, this school has proved a success the past year. More and better blackboard surface is very much needed.

## DISTRICT No. 3.

Prudential Committee, Jacob L. Rowen.

First term. Teacher, Luvia G. Annable; length of school, 9 weeks; number of pupils, 28; average attendance, 26.

ROLL OF HONOR.—Jennie M. Bamford, Mabel A. Foss, Maud C. Gardner, Ina A. Gray, Amy B. Keniston, Fred W. Gardner, Irvin Johnson, Olin L. Philbrook, Harrie E. Philbrook, Thomas W. Sawyer.

Second term. Teacher, Luvia G. Annable; length of school, 7 weeks; number of pupils, 26; average attendance, 23.

ROLL OF HONOR.—Lillie M. Bamford, Jennie M. Bamford, Mabel A. Foss, Maud C. Gardner, Laura E. Gilman, Amy B. Keniston, Elvin E. Gray, Irvin Johnson, Olin L. Philbrook, Harrie E. Philbrook.

This school year has been a success, if success can be predicated of sixteen weeks of school in a year.

## DISTRICT No. 4.

Prudential Committee, Charles W. Morrison.

First term. Teacher, Clara A. Howard; length of school, 10½ weeks; number of pupils, 26; average attendance, 24.

ROLL OF HONOR.—Inez A. Chase, Mabel D. Chase, Charlie H. Philbrick, Willis R. Morrison.

Second term. Teacher, Clara A. Howard; length of school, 11 weeks; number of pupils, 24; average attendance, 22.

ROLL OF HONOR.—Millie Trombly, Anna Favor, Charlie H. Philbrick, Gerry Philbrick, Willis R. Morrison.

The third term of this school has not closed. We congratulate the people of this district on their school privileges, and trust that their interest in the school will prompt to all needful facilities in the work of instruction.

## DISTRICT No. 5.

Prudential Committee, W. H. H. Rollins.

First term. Teacher, Mina M. Fonda; length of school, 6 weeks; number of pupils, 18; average attendance, 17.

ROLL OF HONOR.—Alice C. Rollins.

Second term. Teacher, Helen F. Rollins; length of school, 14 weeks; number of pupils, 23; average attendance, 16.

ROLL OF HONOR.—Alice C. Rollins.

More and better blackboards are needed in this school-room. Had we facts and figures pertaining to the teacher's chair they might be of interest to the antiquary.

This school appears to have made commendable improvement the past year.

We would suggest to parents the importance of aiding their children, during the many weeks when the school-house is closed, in the work of acquiring the rudiments of education. Very much can be done at home to stimulate children in school work.

so that at each school session they will not have to do the work of former terms over again. If parents would interest themselves in this direction their children would not suffer so much the loss incident to so few weeks of school in a year.

SYLVESTER DIXON,

*Superintending School Committee.*

# Report of Board of Education

FOR UNION DISTRICT, MAR. 1, 1883.

The citizens of Union District will heartily join with their Board of Education in expressions of gratitude for the generous donation of Maps, Charts, Globes, &c., made to our school room by Hon. John H. Goodale and W. T. Cass, Esq., executors of the Mooney estate. These gentlemen will please accept the gratitude hereby tendered to them. As all the other schools of Northfield have shared liberally in similar donations, the people of that town should certainly, and do, feel themselves under lasting obligations to these patrons.

The friends of Union District have much reason also for gratulation that concrete walks have been extended to the very gates of the school-yard, thus adding so much to the convenience of the many little folks who would otherwise have to wade through mud and slush for many days of the year to reach the school room.

Only one thing more is needed to perfect this improvement—a wide concrete walk through the yard to the doors of the school building. It is hoped that some way may be provided in the early summer to complete this much needed improvement.

We have to regret that our funds this year obliged us to cut short our winter term to seven and one-half weeks, when there should have been at least twelve weeks.

It is very desirable and exceedingly important that more liberal supplies of money be provided, so that we may have two terms of eleven weeks, and one of twelve weeks, in the year.

If all the parents could be frequent visitors in the school rooms, we think they would become so interested and enthusiastic that they would readily vote the additional necessary funds.

It is not well that so many children should be out of school for a month in the latter part of winter—a season when they can find nothing of advantage to do. In the summer the larger scholars can find some useful employment.

High commendation is due the teachers for the very enjoyable entertainment given by their scholars in the Town Hall at the close of the last term. The whole affair was admirably planned and finely executed. The teachers must have been untiring and persistent in their efforts, and the scholars certainly performed their part well. A large and enthusiastic audience seemed to appreciate the exhibition highly. The proceeds, amounting to \$34, are to be appropriated in the purchase of an organ for the Union School.

The Board of Education at the opening of the past school-year, secured the services of two of the former teachers,—Miss Marion E. Lyford, in the Grammar, and Miss Alice P. Wyman, in the Primary departments, both of whom have maintained, to a high degree, the popularity heretofore justly attributed to them.

In the Grammar School the pupils have made very commendable proficiency, especially so during the last term. Orderly in their deportment, ready in recitation, manifesting the highest respect for the teacher, they are entitled to high commendations. It was a very pleasant school to visit. Twelve of the pupils were reported as having abstained from unlawful whispering during the last term—a very excellent thing for them to do. We hope next term not one will fail of doing the same thing.

Much might be said in praise of this school.

In the Primary department, to Miss Wyman's school of fifty-two pupils, words of the very highest praise are due.

Full of enthusiasm, under the most perfect discipline, most of them very industrious and learning rapidly, the school was one of the very best. It was always a treat to look in upon them.

Of the fifty-two scholars only six or eight were known to indulge in unlawful whispering during the term.

Of the excellent qualifications of this teacher for the Primary work, no words of ours can be an exaggeration. It is a question if her superior can be found. It would assuredly be for the interest of the Union District if her services could be continued.

The Intermediate school at the opening of the last year, passed into the charge of a new and untried teacher, Miss Georgia E. Page, graduate of N. H. C. Seminary, of the class of 1881. It was a heavy responsibility to assume, a difficult task to undertake, but, though much the hardest of the three schools, we find that it has been managed well, the discipline has been commendable, the teaching thorough, the proficiency satisfactory. The teacher takes to her work easily and naturally, and of her first years' work has made a success.

The future will doubtless be increasingly so, as her experience shall mature.

Seventeen have abstained from whispering during the last term.
